

Dino-Lite AM4113T-FV2W

The VW series has two types of LED lights that are switchable between white and UV light. This model has a filter to filter out the returning UV light so that an image with natural colors can be obtained. Also available without return filter (model AM4113T-VW) and in a version with 390-400nm LEDs (model AM4113T-FVW).
